

# Goal Sheet

• I am saving for •

**Goal:** \_\_\_\_\_

**GOAL**

**Reach your goals with your  
Mary Kay money!**

1. Decide what your December goal is and write it in the banner above!

2. Here is the equation:

Take the number you need in profit and divide it by .40. This is the total sales you need this month to reach your goal!

I dare you to do something meaningful with your Mary Kay profits this month! Tell your husband your going to pay the car payment and/or insurance this month, take over the payment of your light bill , pick a family in need, or a cause you believe in! Use your Mary Kay money for something important that has value to you!
