Foundation Shade Numbering System

- First: Shades are separated into three categories — Ivory, Beige, Bronze.
- Second: Shades are separated into depth of color (lightest to darkest). This involves the first two digits.
- 10 = lightest depth 80 = darkest depth
- Third: Shades are separated by undertones (shades). This is the last digit.
- 0 = Yellow 2 = Olive 4 = Pink 5 = More Pink 7 = Golden Orange 8 = Warm Brown
- For example: Ivory 100 = lightest depth (10) with a yellow undertone (0)
- Bronze 808 = darkest depth (80) with a warm brown undertone (8)

Mary Kay® Dual-Coverage Powder Foundation and Mary Kay® Full- and Medium-Coverage Foundations can be worn together or separately on occasions. On the Dual-Coverage Ivory and Beige shades, a customer may need to move up a depth level to get the depth she's looking for as the Dual-Coverage is so translucent and sheer. Since the Dual-Coverage Bronze shades have so much pigment, they will need to be blended well on the face to get the desired look.

Shades are separated by undertones (shades) indicated by last digit.

0 = Yellow 2 = Olive 4 = Pink 5 = More Pink 7 = Golden Orange 8 = Warm Brown
